

Who we are?

Sadako technologies is a Spanish company founded in 2012 willing to use technology and engineering for building a better world. We develop A.I. solutions applied to the recycling field and in particular, the brains behind the MAX-AI robotic waste sorter.

What are the student practices and what would I do if I am selected?

Sadako technologies is looking for students passionate about the use of technology, in particular A.I. based technology, to build a better world. Interns in Sadako perform tasks both in the development of R&D activities regarding new Deep Learning solutions as in the NN production and deployment for the field operation.

What are the required qualifications to apply?

- Be a student in computer engineering, mathematics, statistics or similar
- Used to work in Linux environment. Knowledge in python and/or C++. Experience in use of containers is an asset
- Passion about the use of technology to have a real impact and build a better world
- Strong willingness to learn, specially to learn Deep Learning tech
- Attitude to search for excellence
- Strong interpersonal skills and ability to work effectively in a team environment
- English level enough to read, write and talk

Nice to have (but not necessary):

- Be a student in a master's degree related to Artificial Intelligence or Computer Vision
- Basic Knowledge on Machine Learning and Deep Learning. Experience in a specific DL framework (Caffe, TensorFlow, Caffe2, etc.) or related tools (TensorRT, etc.)

What we offer:

- Work in a top innovator start-up (Nvidia best start-up prize 2016)
- High learning. Not boring and repetitive tasks
- You will feel part of a high-talented team in a nice work atmosphere
- The improvement we achieve is tangible in the recycling industry and its benefits will be real and evident. We offer a project that you will really care about.
- The Master Project can be a part of the internship. Specific topic to be jointly defined among our R+D pipeline

General conditions:

- 25 hours per week (5 hours per day). Flexible schedule
- Remuneration to be agreed
- Immediate incorporation
- Location: Av. Carrilet, 243, 2º 2ª 08907 L'Hospitalet de Llobregat (Barcelona)

If you are interested, send us an email at bgarnica@sadako.es with the Subject "A.I. INTENSHIP" with your CV and any other relevant information you may consider.
